

**MI-7940**  
**CONECTOR TIRA LED 12/24V 10MM**  
**RGB + W TIRA-TIRA HIPPO**

| DENOMINACIÓN                | DATOS TÉCNICOS       |
|-----------------------------|----------------------|
| Color:                      | Transparente         |
| Material:                   | Policarbonato        |
| Medidas:                    | 19,8 X 12,6 X 6,2 mm |
| Pines:                      | 5                    |
| Ancho:                      | 10 mm                |
| Temperatura de deformación: | 80°C                 |
| Voltaje:                    | DC3 ~ 24V            |
| Corriente máx. del PIN:     | 5.5A                 |
| Tipo:                       | SMD                  |
| Protección:                 | IP20                 |
| Calibre del cable:          | ≤20 AWG (0,52 mm²)   |
| Diametro externo:           | Mono OD <2,0 mm      |
| Temperatura ambiente:       | -10°C ~ 45°C         |

Esquema medidas:
